Summary

Senior full-stack engineer with 8 years of experience building logistics and fintech products. Comfortable owning features end to end: PostgreSQL schemas, Python services and React interfaces used by hundreds of operations staff every day.

Experience

Senior Software Engineer - Cedar Freight (Dubai, UAE)

Mar 2021 - Present

- Led the migration of the shipment tracking platform to Python and FastAPI
- Built React and TypeScript dashboards used by 300+ operations staff
- Designed PostgreSQL schemas and deployed services on AWS with Docker
- Introduced GitHub Actions pipelines that cut release time from days to hours

Software Engineer - Dune Analytics Ltd (Remote)

Jun 2018 - Feb 2021

- Developed REST APIs in Django and Flask for fintech dashboards
- Worked with PostgreSQL, Redis and MongoDB in a service-oriented stack

Education

BSc Computer Science - American University of Sharjah (2014 - 2018)

Skills

Python, FastAPI, React, TypeScript, PostgreSQL, SQLAlchemy, Docker, AWS, GitHub Actions, Redis, REST APIs, Linux

Certifications

AWS Certified Solutions Architect Associate (2023)
