

Fatima Noor

Machine Learning Engineer

Abu Dhabi, UAE

fatima.noor@example.com | +971 56 555 0166 | linkedin.com/in/fatima-noor | github.com/fatimanoor-ml

Summary

ML engineer with 5 years of experience shipping production models in regulated environments. Recent focus on document understanding with LLMs, embeddings and retrieval-augmented generation.

Experience

Machine Learning Engineer - Vitalis Health (Abu Dhabi, UAE)

Jan 2023 - Present

- Shipped LLM-based clinical document summarization using the OpenAI API
- Built a retrieval-augmented generation pipeline with embeddings and pgvector
- Owned evaluation harnesses and testing with pytest for model code
- Deployed inference services with FastAPI on Kubernetes

Data Scientist - Falcon Insurance (Dubai, UAE)

Sep 2020 - Dec 2022

- Built risk models in Python with scikit-learn and PyTorch
- Productionized batch scoring pipelines and monitoring

Education

MSc Artificial Intelligence - Khalifa University (2018 - 2020)

Skills

Python, PyTorch, scikit-learn, LLM, OpenAI API, prompt engineering, RAG, embeddings, pgvector, FastAPI, pytest, Kubernetes, pandas

Certifications

DeepLearning.AI TensorFlow Developer (2021)
